

VANCOUVER HOUSING AUTHORITY MIXED USE TRANSIT ORIENTED DESIGN FEASIBILITY STUDY

Vancouver, Washington

A study of the existing State of Washington Tourist Information Center Site to investigate development options combining housing, commercial, day care, park and ride garage, modular tenant storage and open space. Located on a site adjacent to Clark College Field and I-5, the study included meetings with community representatives, City of Vancouver and Clark College administrators to determine their various interests. Options included renovating or demolishing the existing Information Center.

OPTION 2a

CLARK COLLEGE FIELD
